

LEED-CS

Aluminum Exterior & Entrance Systems

Arcadia, Inc. products comply with the LEED for Core & Shell Rating System (LEED-CS).

Let us help you build structures that are healthy, long-lasting, and efficient.

What is LEED?

Leadership in Energy and Environmental Design or LEED is the industry-recognized, voluntary standard that defines high performance green buildings and interiors-- which are healthier, more environmentally responsible and more profitable structures.

LEED-CS certification signifies the design and construction of a building is environmentally sound. Interiors and other areas that the developer has no control over are not covered by LEED-CS.

The U.S. Green Building Council (USGBC) has developed rating systems for all aspects of the built environment.

How Can Arcadia, Inc. Help?

By choosing Arcadia, Inc. aluminum frames systems, you can be sure that the aluminum material we use is recycled and manufactured on site.

The weighted scrap content of our extrusions is 47.9-percent. This includes a post consumer scrap content of 11.1-percent and a post industrial scrap content of 36.8-percent. The remaining 52.1-percent of the extrusions is prime aluminum.

A formal, project specific letter will be provided at your request!

LEED-CS Materials & Resources Version 2.0*

Arcadia, Inc. products can be used to obtain points for the following:

MR Credit 3: Materials Reuse 1% 1 point
Use salvaged, refurbished, or reused materials such that the sum of these materials constitute at least 1%.

MR Credit 4.1: Recycled Content: 10% 1 point
Use materials with recycled content such that the sum of post-consumer recycled content plus one-half of the pre-consumer content constitutes at least 10-percent of the total value of the materials in the project.

MR Credit 4.2: Recycled Content: 20% 1 point
10-percent beyond MR Credit 4.1.

MR Credit 5.1: Regional Materials: 10% Extracted, Processed, & Manufacture Regionally 1 point

MR Credit 5.2: Regional Materials: 20% Extracted, Processed & Manufactured Regionally 1 point

LEED for Core and Shell Handbook Version 2.0 is the most updated compliance handbook.
